

ABT TESA

Mobile Timesheets,
Expense & Approval app for
Web, iOS™ & Android™

**Manage and approve your team's
timesheets and expenses with ease**

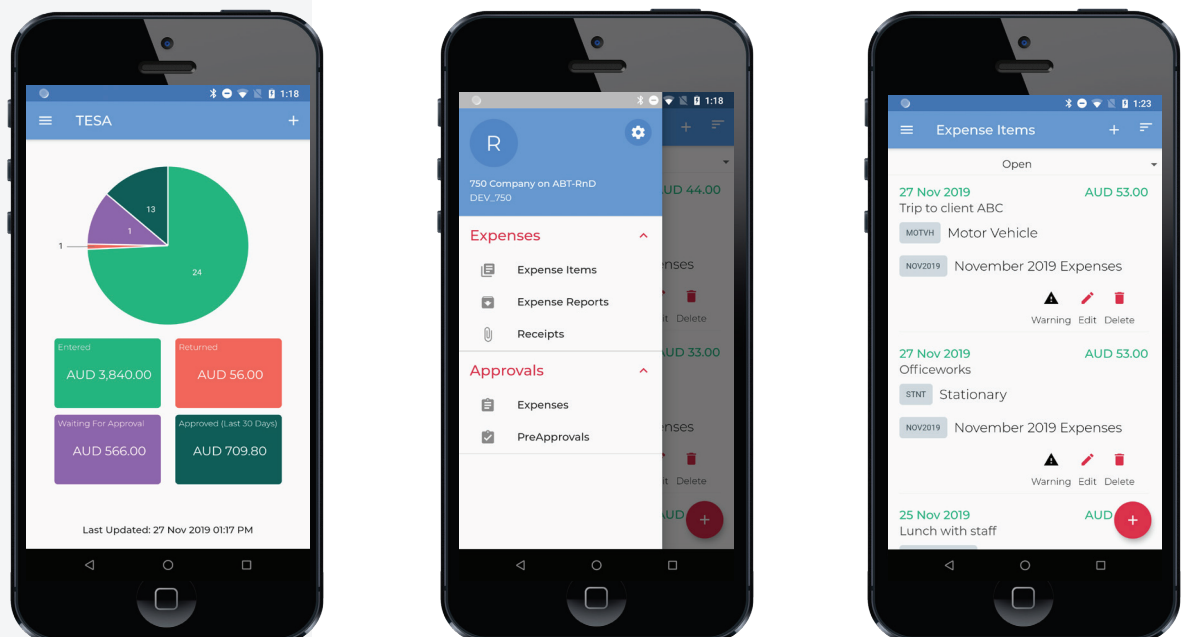

abtgroup.com.au

A simplified way to manage and approve timesheets and expenses

With the simple touch and an easy-to-use interface, mTime&Expense provides employees with a quick and convenient way to enter time and costs against individuals and client's projects.

Whether you are in an office, or at a client site, it shortens the turnaround time frames with an app on the go that will keep track of all approvals for expenditure, invoices, payments and staff leave, in the palm of your hand!

Save time on the go.

Mobile Access for iOS & android

Save time on the go with ABT mTime&Expense

ABT mTime&Expense automatically increases your staff efficiency by providing 24/7 access to accurately log their times and expenses on the road. Available for Android™ and iOS™, it streamlines time and expenditure collection as well as providing workflow for approval.

Fully integrated

Integrated with Pronto and can be used with any other 3rd Party system.

Expense reports & approvals

Group multiple expense items and submit for approval or setup recurring expense reports.

Improve efficiency

Customised data capture for expenses and auto-creation of expense from receipts.

Real time synchronisation

Ability to accurately schedule and track staff hours and project costs.

Use online or offline

Ability to use offline when out of service range and upload once back online.

Receipts

Fully support different types of receipts, images as well as pdf.

Simplify working processes

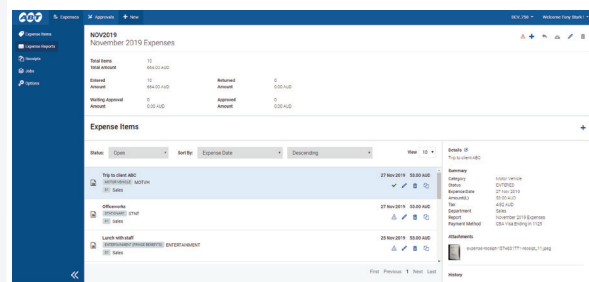

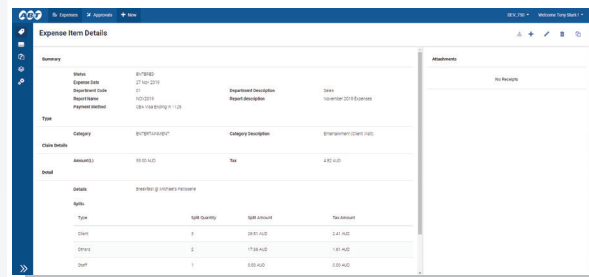

Aids in simplifying employee reimbursement for expenses and payroll.

Keep you connected

24/7 access to log you times against projects and service calls as well as capturing expenses on the the road.

Responsive Web Interface

No more manual timesheets and paperwork!
